MOHAMMED ALI SALEH AL SIDRAN

Najran, Saudi Arabia | +966 53 113 0542 | mohali22611@gmail.com | linkedin.com/in/mohali22611

PROFESSIONAL SUMMARY

Computer Science student and Lead Developer with a strong foundation in full-stack web development and data analysis. Experienced in building modern web applications and leading team projects to solve real-world problems through clean code.

EDUCATION

Bachelor of Science in Computer Science | Jazan University, Saudi Arabia

Expected Graduation: 2030

- **Cumulative GPA:** 4.80 / 5.00
- **Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming (Java), Database Management (SQL), Software Engineering Principles

TECHNICAL SKILLS

Programming Languages: Java, Python, SQL, JavaScript, TypeScript, HTML5, CSS3

- **Frameworks & Libraries:** Next.js, React, Tailwind CSS, NumPy, Pandas
- **Developer Tools & Cloud:** Git, GitHub, RESTful APIs

SOFT SKILLS & LANGUAGES

- **Soft Skills:** Problem-Solving, Team Collaboration, Leadership, Time Management & Organization, Technical Communication
- **Languages:** Arabic (Native), English (Professional Working Proficiency)

PROJECTS & HACKATHONS

Lead Developer | Unified Financial File System

Tuwaiq Academy & Alinma Bank FinTech Hackathon | *slides here*

- Spearheaded front-end and system integration for an AI-driven financial aggregation platform designed to automate customer data analysis across multiple organizational departments.
- Integrated multi-source RESTful APIs to centralize, clean, and structure raw client financial data into unified profiles for internal evaluation.
- Built real-time interactive analytics dashboards using Next.js, React, TypeScript, and Recharts, enabling targeted product recommendations and eliminating redundant telemarketing.
- Engineered an AI assistant feature within the platform that analyzes individual credit factors to provide actionable, automated credit-scoring advice for users.
- Incorporated dynamic animations and responsive layouts with Tailwind CSS, GSAP, and Framer Motion to present complex financial metrics cleanly to non-technical stakeholders.

LEADERSHIP & VOLUNTEER EXPERIENCE

Event Organizer & Member | Google Developer Student Clubs (GDSC)

- Collaborated with cross-functional student teams to organize technical workshops, coding bootcamps, and developer community events.
- Facilitated technical communication and logistics between speakers and student attendees to foster campus developer engagement.

Community Volunteer | Various Organizations

- Completed **130+ certified volunteer hours** assisting local initiatives, supporting event coordination, and executing community service programs.
